DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 18- 25,30-48, 57,58 drawn to PRESERVATIVES.

Group II, claim(s) 26,27, drawn to ODOR MODIFIERS.

Group III, claim(s) 28,29,, drawn to BIOCIDES

Group IV, claim(s) 49 -56,59 drawn to PROCESSES OF PRODUCTION.

The inventions listed as Groups I -IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: THE GROUPS I-III do not have the same technical feature, as odor modifiers, biocides, are not part of the GROUP I formulae, nor do I-III require preparation, as that of GOUP IV

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

a) FORMAL SPECIES; b) EMISSION REDUCER SPECIES; c) ODOR MODIFIER SPECIES; d) BIOCIDES SPECIES; & e) PRODUCT SPECIES

Applicant is required, in reply to this action, to elect a single species, of each of a through e, to which the claims shall be restricted if no generic claim is finally held to

Art Unit: 1615

be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

a) FORMAL SPECIES; claims 49-56

The following claim(s) are generic: 18-48, 57-59.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: any of a formal, otherwise undefined, chemical is claimed, but no particular formal except in GROUP IV

; b) EMISSION REDUCER SPECIES;

The following claim(s) are generic: 18-59.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: specific compounds are required, of different chemical & physical form & function.

c) ODOR MODIFIER SPECIES;

The following claim(s) are generic: 26, 27

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: specific compounds are required, of different chemical & physical form & function.

d) BIOCIDES SPECIES

The following claim(s) are generic: 28-29

Art Unit: 1615

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: specific compounds are required, of different chemical & physical form & function.

e)PRODUCT SPECIES

The following claim(s) are generic:,57,58

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: specific compounds are required, of different chemical & physical form & function.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Because the above restriction/election requirement is complex, a telephone call to applicant's agent to request an oral election was not made. See M.P.E.P. Sec, 812.01.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the

Art Unit: 1615

record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NEIL LEVY whose telephone number is 571-272-0619. The examiner can normally be reached on Tuesday-Friday, 7 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, MICHAEL WOODWARD can be reached on 571-272-8373. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
